

2018 November 14

New Key Account Manager: Alexis Schmidt

TransGas Customer Services is pleased to announce that Alexis Schmidt has accepted the position of Key Account Manager (KAM) effective November 16, 2018. Alexis has a Bachelor of Applied Science in Environmental Systems Engineering and has been working at SaskEnergy for almost 10 years. Throughout her career here, she has worked in Gas Measurement & Acquisition, Business Development, and most recently, System Integrity & Standards. Her diverse background and experience, coupled with her excellent customer service skills, will make her a great addition to the team.

Alexis will be replacing Wendy Uytterhagen, who recently announced her retirement starting December 8, 2018. We are fortunate that Alexis and Wendy will have a few weeks of overlap for training. They will work closely together to ensure that we maintain the level of customer service that our customers are accustomed to. Alexis is looking forward to maintaining the great relationships that exist today and bringing her own customer service expertise and enthusiasm to our customers. You can reach Alexis at 306-777-9687. As always, Alyssa Stoeck and our Customer Service Administrators are also available to assist you during this transition period.

Wendy has been a part of our customer service team for over 12 years. She will be missed and we wish her all the best in her retirement. We would like to thank Wendy for her contributions over the past 12 plus years and welcome Alexis to the Customer Service team.
